

Making bar charts

Sheet 1

Use this table to create a bar chart. Finish writing the weights on vertical axis with each mark representing 100g and the different objects on the horizontal axis. One has been done for you.

Objects	Weight of object
Book	400g
Small whiteboards	300g
Pencil case	600g
Colouring pencil set	100g
Water bottle	500g
Camera	700g

Bar chart showing the weights of classroom objects
