

Addition and Subtraction Unit 6

Problem solving and reasoning questions

Write four sentences to link the numbers 45, 100 and 55.

What mistake has Fred made in each of his sums?

1. $63 + 47 = 100$

2. $26 + 84 = 100$

3. $41 + 69 = 100$

Correct each one for him.

Write all additions of this form: $\square + \square = 100$ where one of the numbers has two digits the same.

These questions should be provided for children to do once the unit has been completed. They assess the children's mastery of the skills and concepts in this unit.
