

Addition and Subtraction Unit 4

Problem solving and reasoning questions

Make a line of 13 cubes.

How many will you have if you add two more - Write the answer **before** you add them!

Sam built a tower of cubes. He took 1 off.

His tower was 12 cubes tall.

How tall was it before?

Start at 5. Add 2.

Add 2 to your answer.

Keep going like this.

Do you get to 20?

Decide which order you would add each pair of cards. Write the addition.

2 14

12 3

15 4

These questions should be provided for children to do once the unit has been completed. They assess the children's mastery of the skills and concepts in this unit.
