Subtraction practice
Sheet 1

1. 64,784 - 21,529   2. 75,548 - 43,273   3. 86,347 - 33,720

4. 72,583 - 45,251   5. 56,421 - 24,175   6. 92,765 - 48,308

7. 45,287 people live in South Oaktown. 38,145 people live in North Oaktown. What is the difference between their populations?

8. The odometer on a six-year old car shows 63,564 miles. In the first five years it had driven 52,382 miles. How many miles were driven last year?

Challenge

Write a word problem which involves subtracting 45,875 from 50,005. Then explain how you would do the subtraction if you were solving your own word problem!
