

Place Value and Money Unit 1

Problem solving and reasoning questions

Draw a line. Mark the ends 0 and 100. Draw marks for 50, 80 and 20.

Which numbers are in the wrong place on this line?

Write all the numbers between 20 and 100 that have a 10s digit that is 1 more than the 1s digit, e.g. 21.

These questions should be provided for children to do once the unit has been completed. They assess the children's mastery of the skills and concepts in this unit.
