Worksheet 3.4A

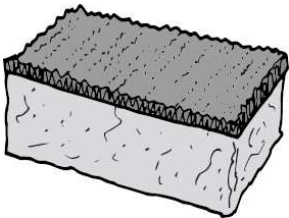

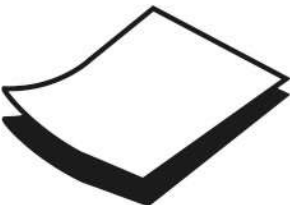

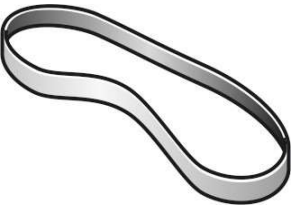

Testing elastic materials

You will need: a sponge, a sheet of paper, a rubber band and a paper clip.

Elastic materials go back into shape after being stretched, squashed, twisted or bent.

Do you think these materials are elastic?

Test them to find out.

			
sponge	paper	rubber band	paper clip
elastic <input type="checkbox"/>	elastic <input type="checkbox"/>	elastic <input type="checkbox"/>	elastic <input type="checkbox"/>
not elastic <input type="checkbox"/>	not elastic <input type="checkbox"/>	not elastic <input type="checkbox"/>	not elastic <input type="checkbox"/>
