## Sheet 1

Answer the questions about these coloured circles:

Which colour is third?

Which colour is 5<sup>th</sup>?

Which colour is second?

Which colour is 8<sup>th</sup>?

Which colour is first?

Which colour is fourth?

Which colour is 7<sup>th</sup>?

Which colour comes after the 9<sup>th</sup>?

Which colour comes between the 8<sup>th</sup> and 10<sup>th</sup>?

Now colour these circles to match the descriptions:

The third circle is green.

The fifth circle is blue.

The first circle is red.

The fourth circle is black.

The sixth and ninth circles are purple.

The tenth circle is the same colour as the first.

The circle that comes after the first circle is orange.

The circles between the sixth and ninth circles are pink.

# Ordinal numbers

## Sheet 2

Which colour is fifth?

Which colour is fifteenth?

Which colour is 3<sup>rd</sup>?

Which colour comes after the eleventh?

Which colour comes before the seventh?

Which colour comes two after the twelfth?

Which colour comes before the 2<sup>nd</sup>?

Which colour comes between the eighth and the tenth?

Which colour comes between the thirteenth and fifteenth?

Now colour these circles to match the descriptions:

The colour that comes after the fourth circle is green.

The twelfth colour is red.

The colour that comes between the sixth and eighth circle is red.

The colour that comes two before the twelfth is green.

The first and second colours are the same as the ninth colour.

The 2 colours that come between the second and fifth circle are purple.

The colour that comes before the ninth circle is the same as the fifth.

The colour that comes before the tenth circle is blue.

The colour that comes after the fifth colour is orange.

The colour that comes after the tenth is the same as the colour that comes before the tenth.

The 2 colours that come between the twelfth and fifteenth circle are brown. The fifteenth circle is yellow.
