

Place Value Unit 4

Problem solving and reasoning questions

Write the next 3 numbers in each sequence:

34, 35, 36, 37, ...

76, 75, 74, 73, ...

24, 23, 22, 21, ...

86, 87, 88, ...

True or false?

- The number 1 more than a number ending in 8 always ends in a 9.
 - The number 1 less than a number ending in 0 ends in 9.
-

Explain why $13 + 10 - 10$ is the same as $13 - 10 + 10$

These questions should be provided for children to do once the unit has been completed. They assess the children's mastery of the skills and concepts in this unit.
