

Bead bar subtraction

Sheet 1

Cross out beads to match the subtraction.
Complete the number sentence.

1.

$$6 - 2 = \square$$

2.

$$5 - 3 = \square$$

3.

$$4 - 2 = \square$$

4.

$$7 - 3 = \square$$

5.

$$10 - 3 = \square$$

6.

$$9 - 2 = \square$$

7.

$$11 - 2 = \square$$

Bead bar subtraction

Sheet 2

Draw and cross out beads to match the subtraction.

Complete the number sentence.

$$14 - 2 =$$

1.

$$\boxed{12} - \boxed{2} = \boxed{}$$

2.

$$\boxed{13} - \boxed{3} = \boxed{}$$

3.

$$\boxed{11} - \boxed{2} = \boxed{}$$

4.

$$\boxed{10} - \boxed{3} = \boxed{}$$

5.

$$\boxed{10} - \boxed{2} = \boxed{}$$

6.

$$\boxed{12} - \boxed{3} = \boxed{}$$

Challenge

Which gives a bigger answer? $13 - 4$ or $14 - 3$. Guess first then work these out. What about $15 - 4$ and $14 - 5$?
