

## Day 2: Know pairs to 20.

How many have I hidden?

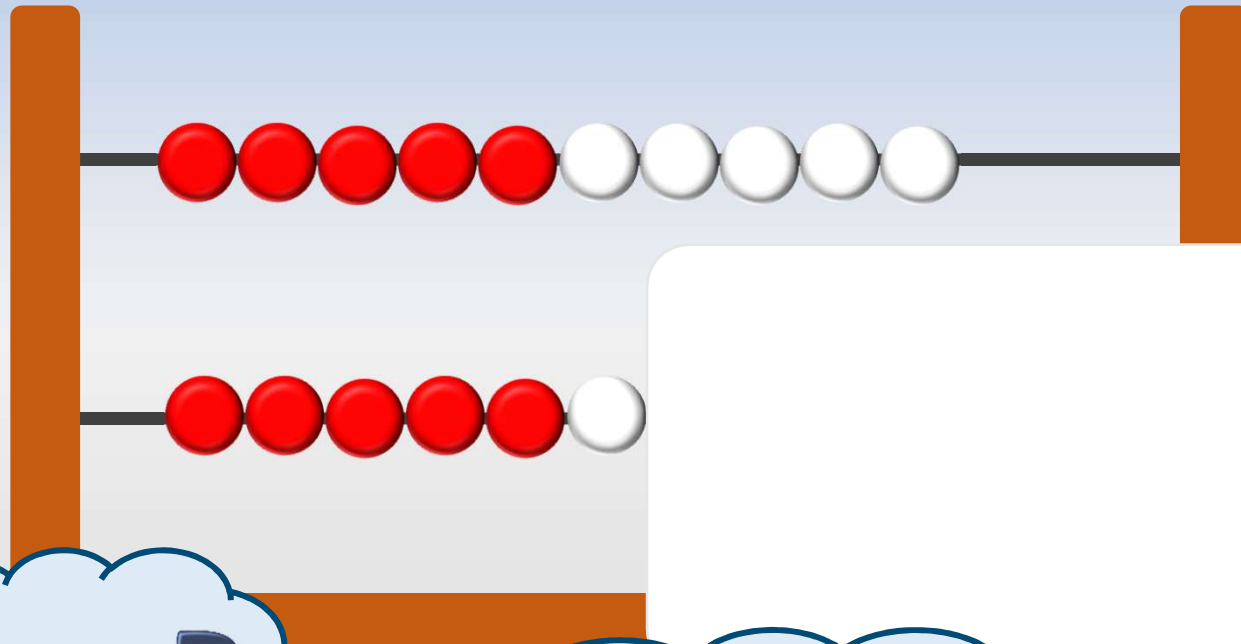

How do you know?

What colour are they?  
How many were on the bottom row?

What do you add to 8 to make 10?

$$18 + 2 = 20$$

## Day 2: Know pairs to 20.

How many have I hidden?

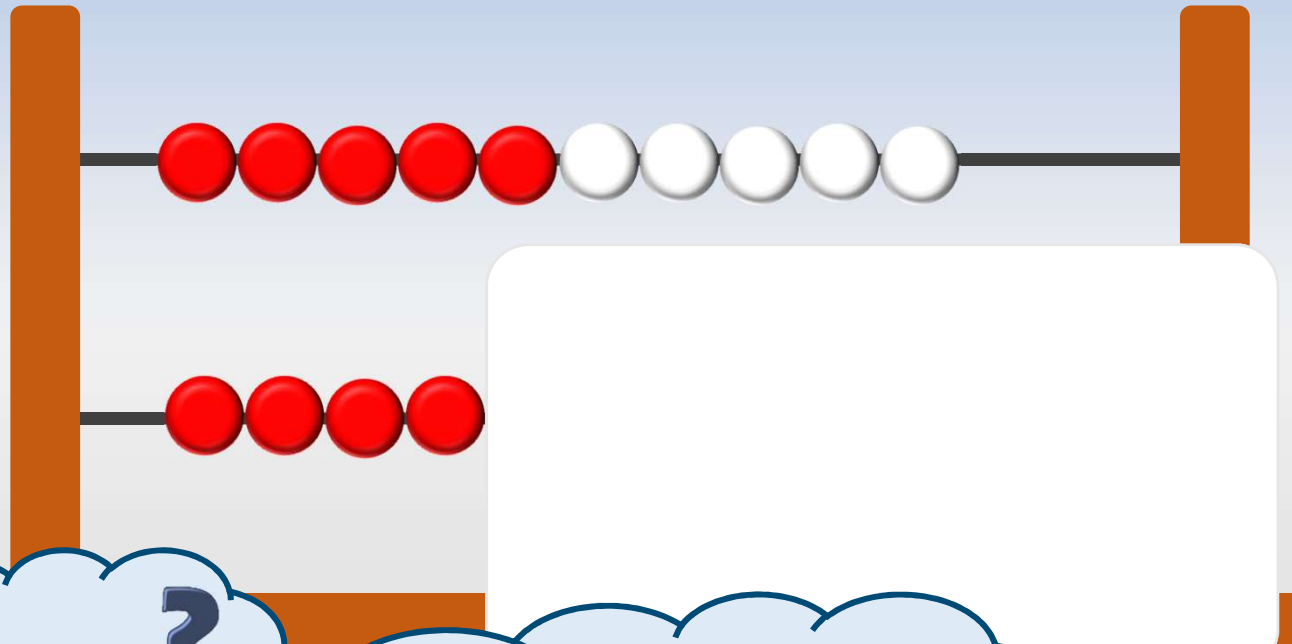

How do you know?

What colour are they?  
How many were on the bottom row?

What do you add to 6 to make 10?

$$16 + 4 = 20$$

## Day 2: Know pairs to 20.

How many have I hidden?

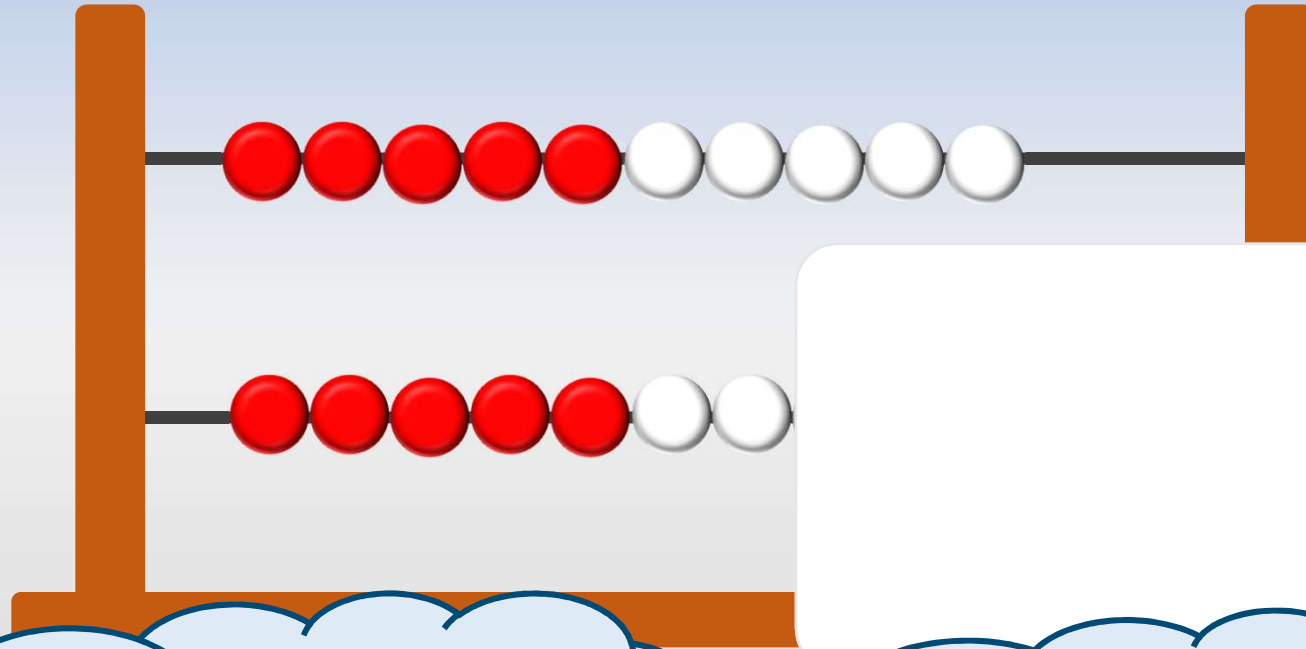

How do you know?

What colour are they?  
How many were on the bottom row?

What do you add to 4 to make 10?

$$14 + \boxed{6} = 20$$

## Day 2: Know pairs to 20.

If we know 7 add 3 makes 10, what do we add to 17 to make 20?

?

$$17 + \boxed{3} = 20$$

What do we add to 13 to make 20? How do you know?

?

$$13 + \boxed{7} = 20$$
