

Missing numbers

Sheet 1

Complete the missing numbers.

$8 + \square = 10$

$18 + \square = 20$

$28 + \square = 30$

$38 + \square = 40$

$23 + \square = 30$

$33 + \square = 40$

$43 + \square = 50$

$53 + \square = 60$

$31 + 9 = \square$

$41 + 9 = \square$

$51 + 9 = \square$

$61 + 9 = \square$

$57 + 3 = \square$

$67 + 3 = \square$

$77 + 3 = \square$

$87 + 3 = \square$

$\square + 6 = 20$

$\square + 6 = 30$

$\square + 6 = 40$

$\square + 6 = 50$

$\square + 5 = 40$

$\square + 5 = 50$

$\square + 5 = 60$

$\square + 5 = 70$

Missing numbers

Sheet 3 (continued)

Story 4

I can see beads.

To match this story I write this number sentence:

The next multiple of 10 is To make it I need more.

Story 5

I can see beads.

To match this story I write this number sentence:

The next multiple of 10 is To make it I need more.

Story 6

I can see beads.

To match this story I write this number sentence:

The next multiple of 10 is To make it I need more.

Challenge

For each story, write the pair to 10 used to solve the problem.
