

Money and Time Unit 2

Problem solving and reasoning questions

Write three different amounts that can be made using three identical coins

True or false

- 2p and 1p are the only brown coins
 - A 10p coin is smaller than a 2p
 - 5p is the smallest coin
-

Start with 1p

Add 2p five times.

What is your answer?

Start with 10p

How many times can you subtract 2p?

How many different ways are there of giving me 5p?

These questions should be provided for children to do once the unit has been completed. They assess the children's mastery of the skills and concepts in this unit.
