# 4 x table

## Sheet 1

Work against the clock to complete these calculations.

| Bronze | Silver | Gold |
|---|---|---|
| 1 x 4 = | 6 x 4 = | 1 x 4 = |
| 2 x 4 = | 2 x 4 = | 4 x 5 = |
| 3 x 4 = | 10 x 4 = | 4 x 4 = |
| 4 x 4 = | 9 x 4 = | 12 x 4 = |
| 5 x 4 = | 12 x 4 = | 4 x 2 = |
| 6 x 4 = | 1 x 4 = | 6 x 4 = |
| 7 x 4 = | 7 x 4 = | 4 x 10 = |
| 8 x 4 = | 8 x 4 = | 11 x 4 = |
| 9 x 4 = | 4 x 4 = | 9 x 4 = |
| 10 x 4 = | 3 x 4 = | 4 x 3 = |
| 11 x 4 = | 11 x 4 = | 8 x 4 = |
| 12 x 4 = | 5 x 4 = | 4 x 7 = |

**Challenge**

Does this rule work? Test it on some numbers above 100 using a calculator. Then write three numbers above 200 that are divisible by 4.

RULE: If the last 2 digits in a number are in the 4x table, then the whole number is a multiple of 4.
