

Day 2: Find halves of even numbers using strips to help.

How many stars were on the whole strip?

Unfold the strip to check.

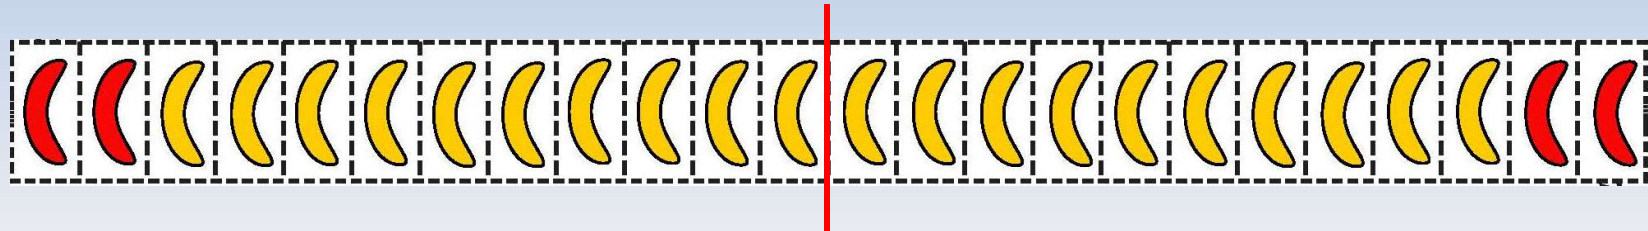

Double 11 is 22...

and half of 22 is 11.

22	
11	11

We can show that on this **bar model**.

Day 2: Find halves of even numbers using strips to help.

Take your strip of 24 shapes
and fold it in **half**...

Check you have the **same**
number of shapes in each half...

What is half of 24?

Half of 24 is 12.

What is double 12?

24	
12	12
