

# What's the calculation?

## Sheet 1

Look at the marks that Spider has made on the 1 - 100 grid.  
Write down the possible calculations that Spider was working on.

### Challenge

Start on 9. Add 10, then add 20, then add 30, etc.  
Stop when you get over 100.  
Start on 4 and do the same.

Predict (without doing it) what you would get if you started on 1.  
What number would you have to start on to subtract 10, then 20,  
then 30, then 40 and end up on 5?
