More Addition and Subtraction Unit 5

Problem solving and reasoning questions

Write three additions which include a 2-digit number and the number 22.

Complete each number sentence:

27 + ☐ = 46

☐ + 29 = 73

☐ − 19 = 56

Complete the patterns:

17, 26, __, 44, __, __.

5, 34, 63, __, __.

Start with 21
 Add 9, then
  add 19, then
   add 29.
    What is the answer?
   Subtract 9, then
  subtract 19, then
 subtract 29.

Start with 18 and do the same 6 calculations. Can you predict the answer before doing the last 3 calculations?

These questions should be provided for children to do once the unit has been completed. They assess the children's mastery of the skills and concepts in this unit.
