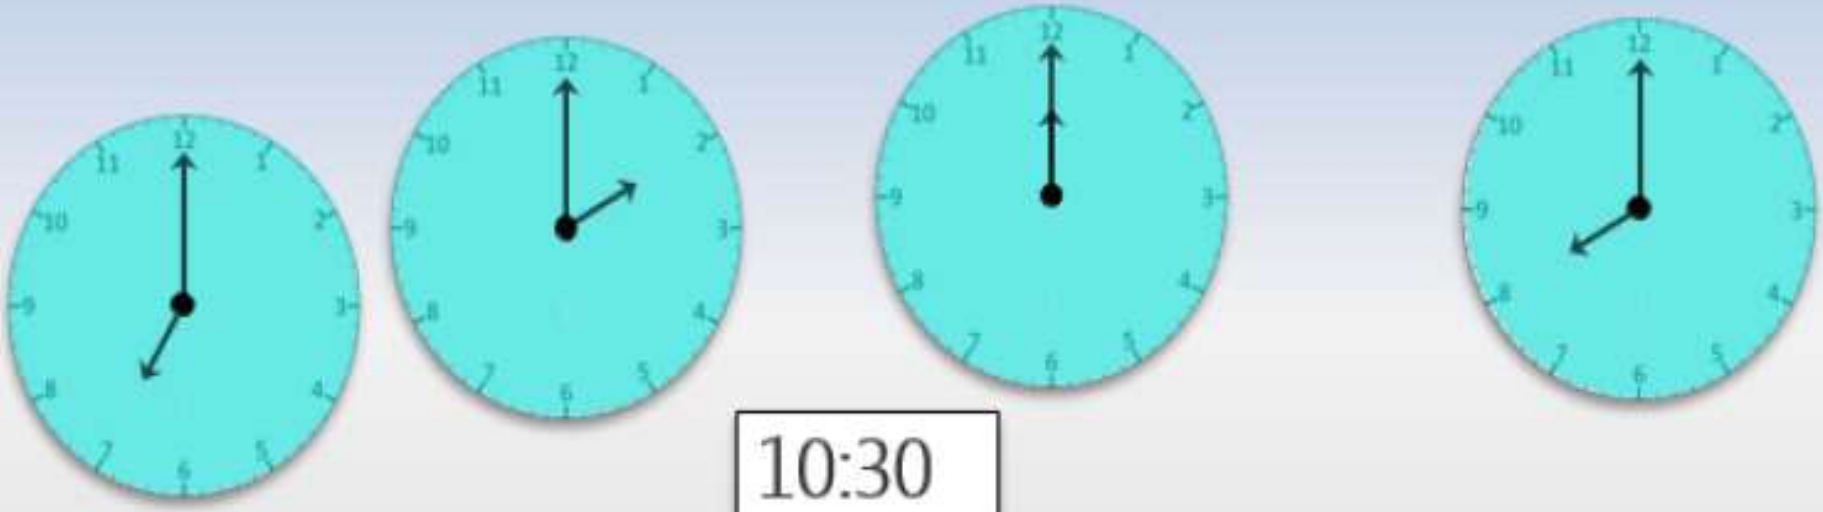
Day 2: Order time to the half hour, using digital and analogue clocks.



10:30

The clock showing 12 o' clock is 'midday'. The other times are all in the morning.

What might we be doing at these times during the day?

Put the times in chronological order.

Day 2: Order time to the half hour, using digital and analogue clocks.

Put the times in chronological order.

10:30

What if the clocks showing 2 o' clock and 10:30 were now after midday?
