

Day 1: Draw and interpret a block graph.

Squares		2
Oblongs	 	6
Circles		2
Pentagons		4
Hexagons	 	6
Triangles		3
Octagons		1

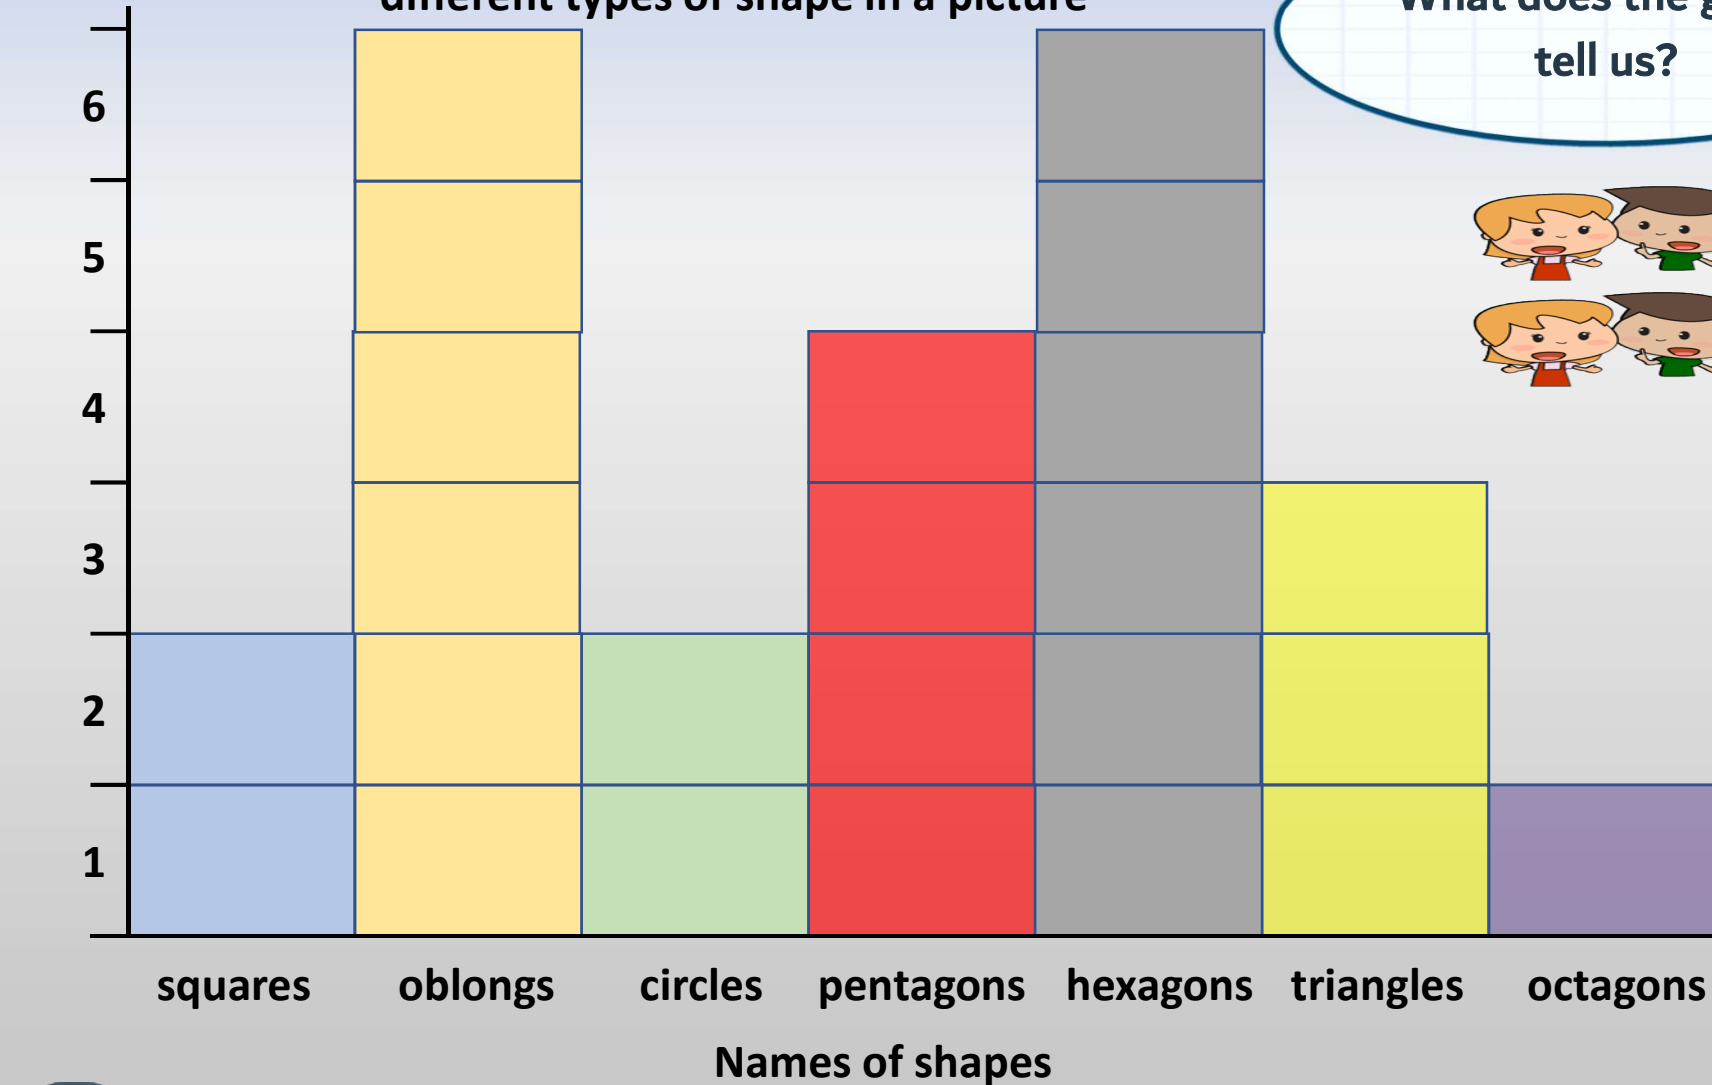

Let's count each shape and make a tally chart. First we'll check the **squares...**

Now we can find the total number for each shape and use the information to draw a **block graph...**

Day 1: Draw and interpret a block graph.

A block graph to show the number of different types of shape in a picture

How many

What does the graph tell us?
