

# Coding Concepts Pavlova

## Instructions:

Your goal is to create an algorithm to take the strawberries to the pavlova and then the pavlova to the table.

Cut out the cards below and use them to create the correct path, starting at the strawberries. They must all be used to form part of the path. You cannot go on a square that is blocked by a knife and fork or salt and pepper. The x 2 cards mean that you move 2 squares in that direction.

# Coding Concepts Pavlova Answer

## Instructions:

Your goal is to create an algorithm to take the strawberries to the pavlova and then the pavlova to the table.

Cut out the cards below and use them to create the correct path, starting at the strawberries. They must all be used to form part of the path. You cannot go on a square that is blocked by a knife and fork or salt and pepper. The x 2 cards mean that you move 2 squares in that direction.
