

Create a program in ScratchJr for the rabbit to move 11 steps right at slow speed.

Step	Instruction	
1	Start on Green Flag	
2	Move at slow speed	
3	Move 11 steps right	11 
4	Stop program	

Now change the algorithm so the rabbit moves **faster**.

Step	Instruction	
1	Start on Green Flag	
2	Move at fast speed	
3	Move 11 steps right	11 
4	Stop program	

What is the new speed of the Rabbit?

Slow

Fast

Challenge: Change the algorithm so the rabbit moves at a **medium speed** and **hops 6 steps up** after moving right.
