Worksheet 6.2

Make a Sun, Moon and Earth Model

Use the shapes with dotted outlines on the next page to make a model like this.

- 1 Colour in the Earth, Sun and Moon.
- 2 Make the five holes. Push a sharp pencil through the card into some modelling clay.
- 3 Cut out the Earth, Sun and Moon and connecting pieces.
- 4 Connect everything together using two paper fasteners.
- 5 Add some extra labels using these facts:

The Earth takes 365 days to orbit the Sun.

The Moon takes 29 days to orbit the Earth.

The Earth spins once in 24 hours.
