---

*All finished? Compare your answers with another team's. If there are some questions you have answered differently, check to see who is right.*

*Try making up questions like these for another pair to answer.*

## **Contents Page and Index Puzzle (2)**

*Print double sided and give to children along with photocopies of the Contents pages and pages 132-133 of the Index from the DK First Dinosaur Encyclopedia*

**These questions are about the Contents pages**

The first main section of the book is entitled **Age of the Dinosaurs**. What is the next main section entitled?

---

True or False? There a main section called **British Dinosaurs**.

---

What would you read about on pages 18-19?

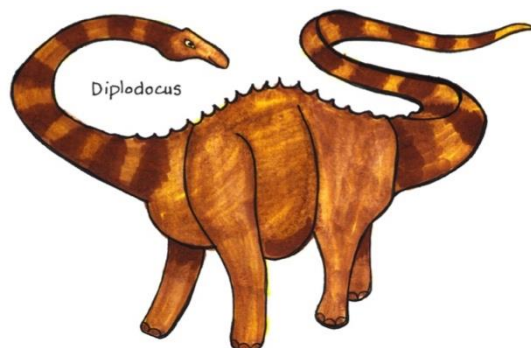

---

Are pages 36-37 about 'Petrified Forests' or 'Triassic Plant Eaters'?

---

If someone wanted to read about the dinosaur *Spinosaurus*, which pages in the book would they need to go to?

---

*Turn over*

**These questions are about the *Index***

What page could you discover information about amber on?

---

True or false? There is an entry under B for Brankosaurus.

---

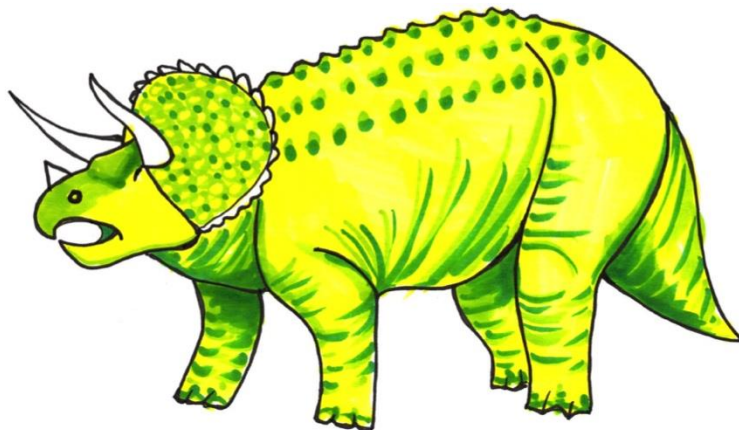

Find the entry for Jellyfish. Is one of the pages it says you should look at page 100?

---

Claws or Diplodocus: which entry has the most pages after it?

---

All finished? Compare your answers with another team's. If there are some questions you have answered differently, check to see who is right.

Try making up questions like these for another pair to answer.

## ***Puzzle Examples***

Your challenge is to write puzzle questions based on the Contents page and Index of the *DK First Dinosaur Encyclopedia*.

Use the example questions below to give you an idea of what kind of questions to make up.

See if you can write 5 questions to go with the Contents page and 5 questions to go with the Index.

1. The first main section of the book is entitled **Age of the Dinosaurs**. What is the next main section entitled?
2. True or False? There a main section called **British Dinosaurs**.
3. What would you read about on pages 18-19?
4. Are pages 36-37 about 'Petrified Forests' or 'Triassic Plant Eaters'?
5. Using the Index, what page could you discover information about amber on?
6. True or false? There is an entry in the Index under B for Brankosaurus.
