

Subtracting two-digit numbers

99 95 56

75 60 — 89

74

52 40

37

Pick a number from each set to make a subtraction to solve each challenge.

- How many 1-digit answers can you make?
- How many multiples of 10 can you make?
- How many odd number answers can you make?
- How many even number answers can you make?
- How many answers more than 30 can you make?

Now think of a challenge for the rest of the class.
