

Hamilton AU5.3 Written Subtraction

Subtraction using expanded decomposition Sheet 2

For each question, estimate the answer before you work it out and check your final answer using addition.

Section A

$998 - 239 =$

$887 - 396 =$

$776 - 648 =$

$665 - 372 =$

$554 - 262 =$

$443 - 234 =$

$332 - 224 =$

$221 - 112 =$

Section B

$921 - 533 =$

$821 - 444 =$

$721 - 277 =$

$621 - 355 =$

$521 - 266 =$

$421 - 188 =$

$321 - 232 =$

$802 - 374 =$

$960 - 438 =$

Challenge

Create a subtraction like this: $8\triangle\bigcirc - 4\square\triangle$ where the answer consists of 3 consecutive numbers in decreasing order, e.g. 654 or 987.
