

## Rock Survey Activity Sheet

**Location Information:** \_\_\_\_\_ **Date of Survey:** \_\_\_\_\_

**Name of the Surveyor:** \_\_\_\_\_

**Observations:** Please describe the rocks you have observed in the local area. Pay attention to their characteristics such as color, texture, grain size, and any visible features or patterns.

1. Describe the predominant type(s) of bedrock found in the area: Granite

Limestone

Sandstone

Basalt

Slate

Other (please specify): \_\_\_\_\_

2. Are there any notable geological formations or features observed? If yes, please describe:

\_\_\_\_\_  
\_\_\_\_\_

### Distribution and Occurrence:

3. Where are the rocks primarily located in the area (e.g., near rivers, hills, road cuts, etc.)?

\_\_\_\_\_  
\_\_\_\_\_

4. Are there any specific locations where certain types of rocks are more prevalent?

\_\_\_\_\_  
\_\_\_\_\_

**Rock Properties:**

5. What colors are most commonly observed in the rocks?

\_\_\_\_\_  
\_\_\_\_\_

6. Describe the texture and grain size of the rocks (e.g., fine-grained, coarse-grained, smooth, rough, etc.).

\_\_\_\_\_  
\_\_\_\_\_

7. Are there any noticeable patterns or structures present in the rocks (e.g., layers, veins, fractures, etc.)?

\_\_\_\_\_  
\_\_\_\_\_

**Human Interactions and Uses:**

8. Have you noticed any human activities or uses associated with the rocks in the area (e.g., quarrying, construction materials, decorative purposes, etc.)?

\_\_\_\_\_  
\_\_\_\_\_

**Additional Comments:**

Please feel free to provide any additional comments, observations, or insights related to the local rocks and geological features.
