# WHAT IS CLIMATE

The weather found in a certain place over a long period of time is known as the climate. An area's climate determines what kinds of plants can grow and what kinds of animals can survive there.

# HOW DOES CLIMATE CHANGE AFFECT QATAR

Supporting the global response to the threat of climate change. Advancing the implementation of the Convention, the Kyoto Protocol and the Paris Agreement. Climate Change Action. Climate Empowerment. Intergovernmental Action..

# HOW IS QATAR FIGHTING WITH CLIMATE CHANGE

Qatar said it has cut planet-heating emissions by installing solar-powered lighting and cooling systems, and constructing "energy efficient stadiums." Emissions it can't avoid, it will offset with local green projects. Nov 21, 2022

# HOW CAN WE CHILDREN STOP THE CLIMATE CHANGE

Conserve energy in your everyday life.

Close doors immediately so heat does not escape. Take short showers. Walk or bike if you can (instead of having your parents drive you). Turn off your computer when not in use (don't leave it on just to keep Facebook or Myspace active).

THANK

YOU

don't forget to help
